

A smarter way to send
and receive deliveries

Open the possibilities with Smart Door & Delivery

At SD&D we believe that a smart door needs to be much more than a door or bench. A SD&D system is your gateway to an easier lifestyle. Imagine ordering online and knowing your package will be delivered safely and securely inside your home, while you're at work or away. SD&D introduces the guaranteed sending and receiving solution for all of your package issues.

Today's Delivery Results
What usually happens:

You adjust your schedule to stay home
Time away from work and/or loss of personal time

Peace of mind delivered

We know you need a solution that guarantees:

- Securely delivered packages inside your door or bench, the first time, every time
- You can ship and return packages from your home without hassle
- No additional expense (time or \$) for re-delivery or missed packages
- Eliminating the need to retrieve a package from a remote location
- 100% customer confidence in all deliveries; increasing your purchase power
- No more ring, drop & run, or 'Attempted Delivery' notices
- Knowing where your package is at anytime with tracking and notification
- Safe, expanded delivery options include groceries, liquor, prescriptions, flowers, and other perishables

Delivered safely inside your home

Technology

This is the brain of your gateway

- Know exactly when your package is delivered
- See who delivered your package
- Remotely send unlock code if carrier has a problem
- Your signature is accessible for scanning of all authorized signature deliveries
- Leave additional instructions for carrier
- Monitor your front door visitors with real time camera viewing
- Receive text from voice messages left by anyone

How SD&D works

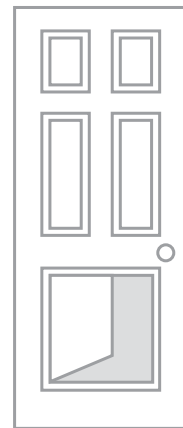

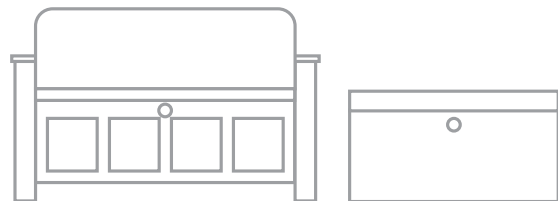

SD&D Options

3 design options; same SD&D Security, Safety, and Certainty

Smart Bench or Box

If a smart door isn't right for you, the smart bench or box has all the same features, is securely attached, and handy for all deliveries

Smart Door

- Easy installation
- Retrofit your existing door or choose a new one
- Choose a tablet mount to fit your home's style

How can the SD&D system help you?

Retailer Benefits

- When customers always receive their packages the first time, their trust goes up and so does their spending on your site – RETAIL LIFT
- When a delivery fails your costs go up; with SD&D those costs go way down
- Your reputation, credibility and loyalty goes up when a customer has a great shopping & delivery experience
- Reviews and social media will light up when news of your company's guaranteed deliveries with SD&D hits the street

Carrier Benefits

- Guaranteed first time delivery
- When people order more online, you deliver more packages and increase revenue
- You save money across the board (up to 3x) when you eliminate failed deliveries
- SD&D improves your relationship with retailers, which improves overall customer satisfaction
- Integrated (NFC or GPS) saves steps / time / money.
- Free delivery options add miles. SD&D improves customer satisfaction and reduces miles.
